

What Are Hormones And How It Affects You

Vivien Lim

President Endocrine and Metabolic Society
of Singapore

Gleneagles Medical Centre

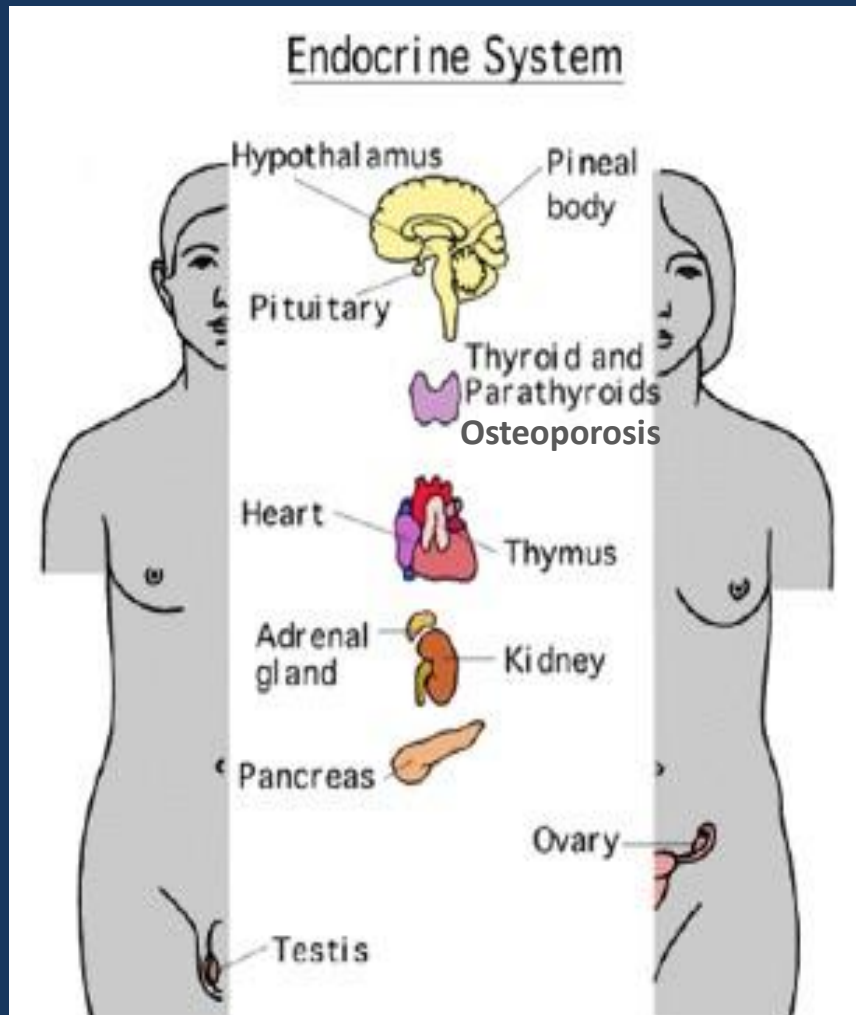

Vivien Lim Endocrinology Specialist Centre
Diabetes, Thyroid, Osteoporosis, Weight Management & Hormones

Endocrinology

- Specialty of glands which produce hormones
- Hormones are messengers of the body that communicate orders from the glands to different parts of the body.

This is what we do...

Glands

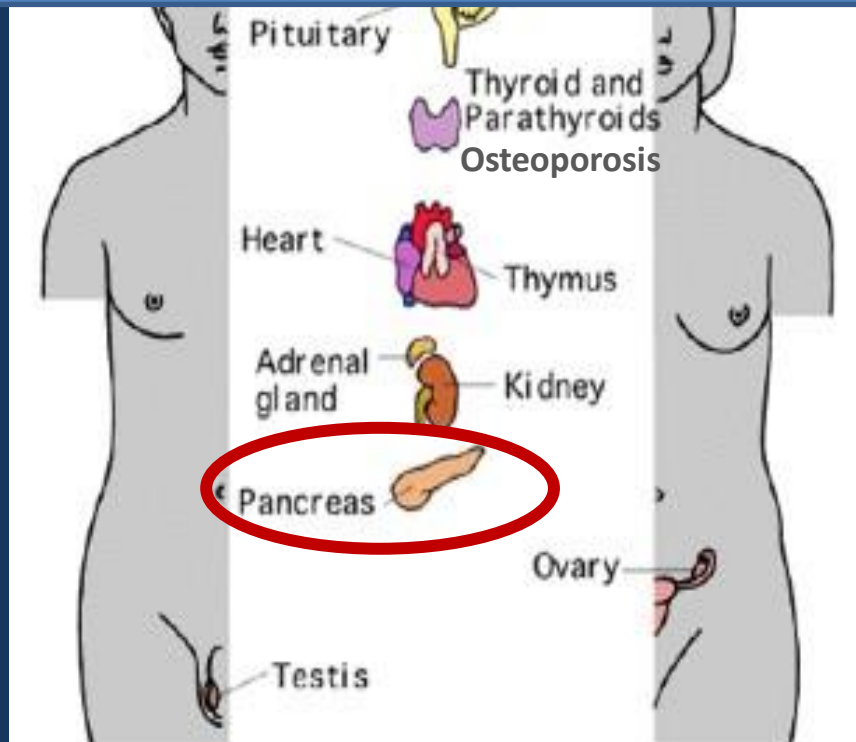

Hormones

ENDOCRINOLOGY

This is what we do...

So many drugs...

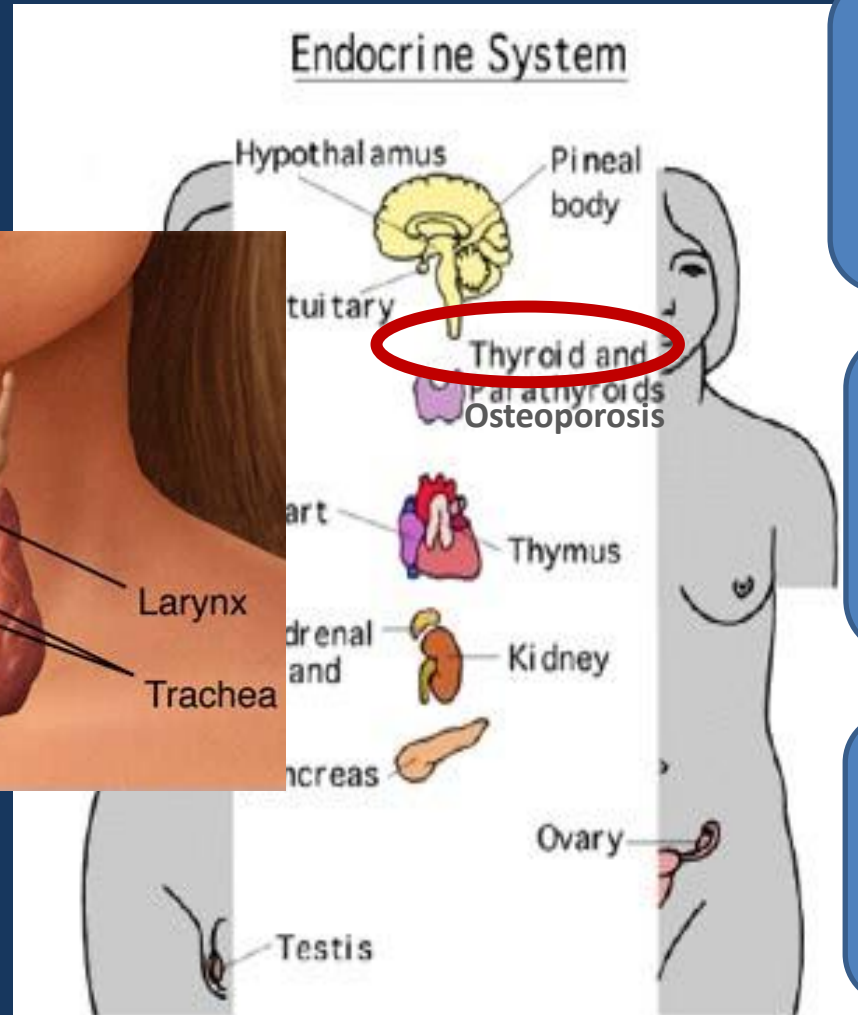

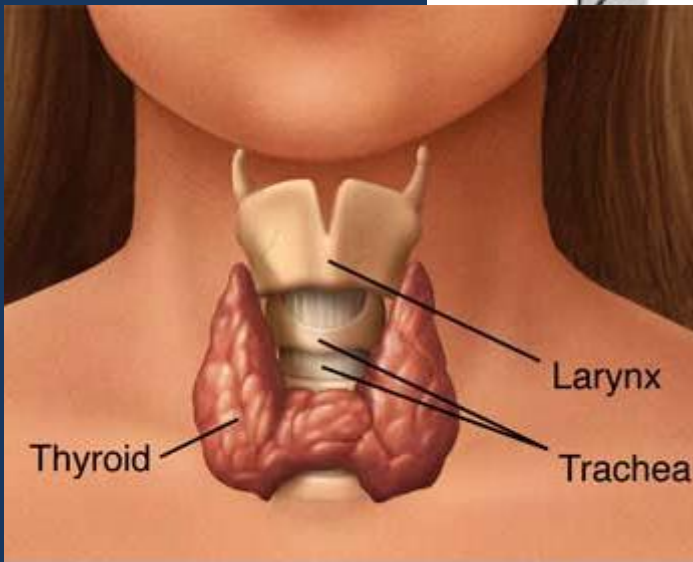

Diabetes

Insulin

ENDOCRINOLOGY

This is what we do...

Too little

Too much

Cancer

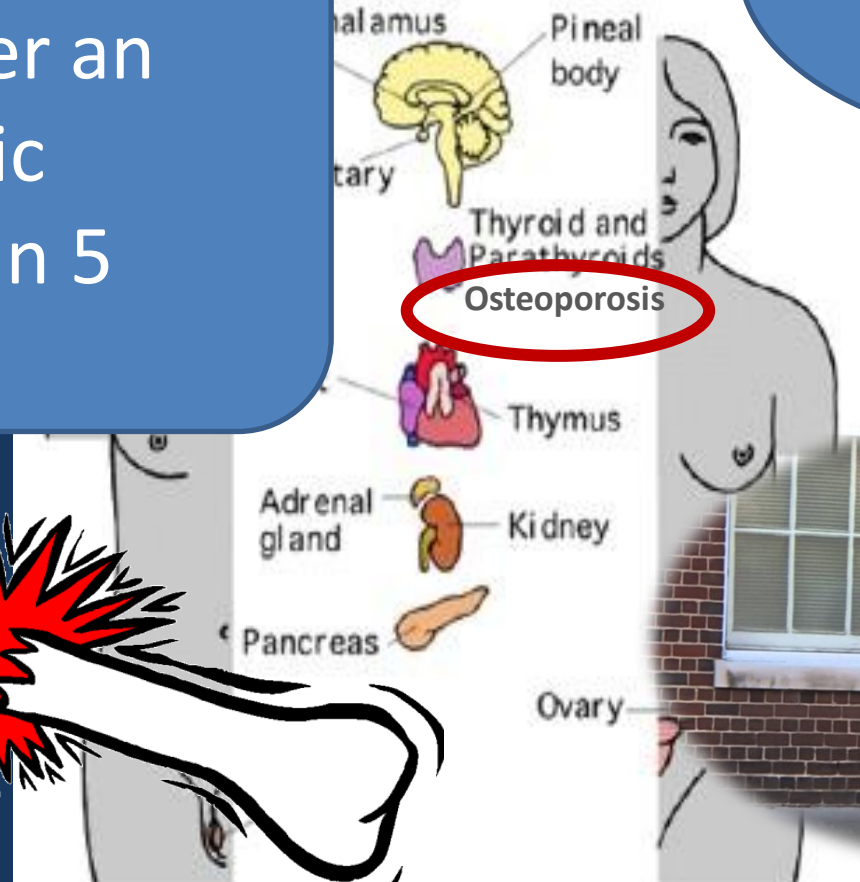

ENDOCRINOLOGY

This is what we do...

-1 in 3 women over 50 will suffer an osteoporotic fracture; 1 in 5 men.

Calcium and vitamin D

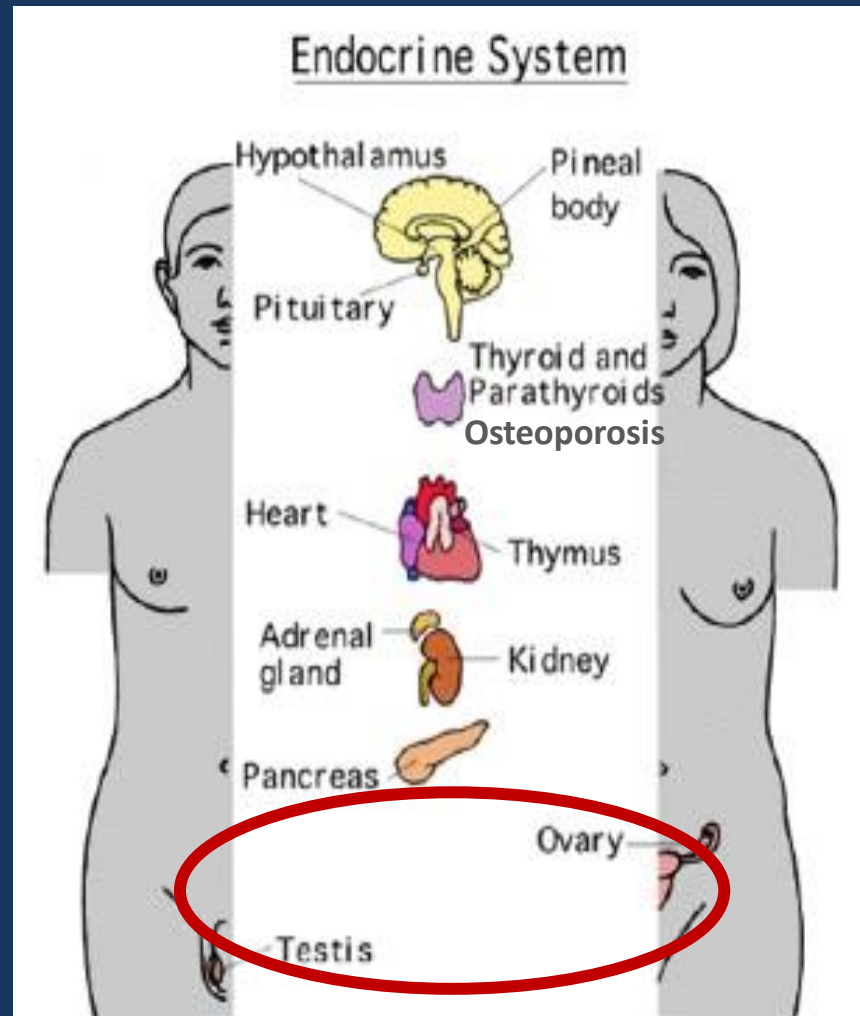

Endocrine System

ENDOCRINOLOGY

This is what we do...

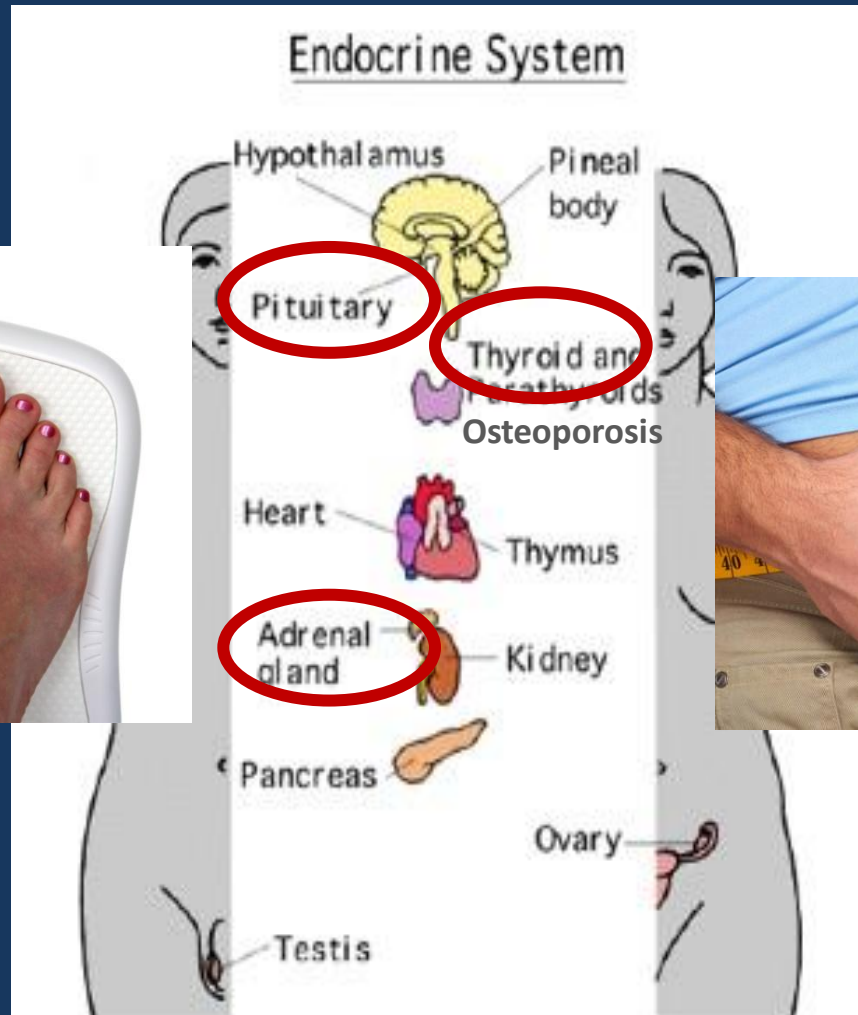

Male
hormones

Female
hormones

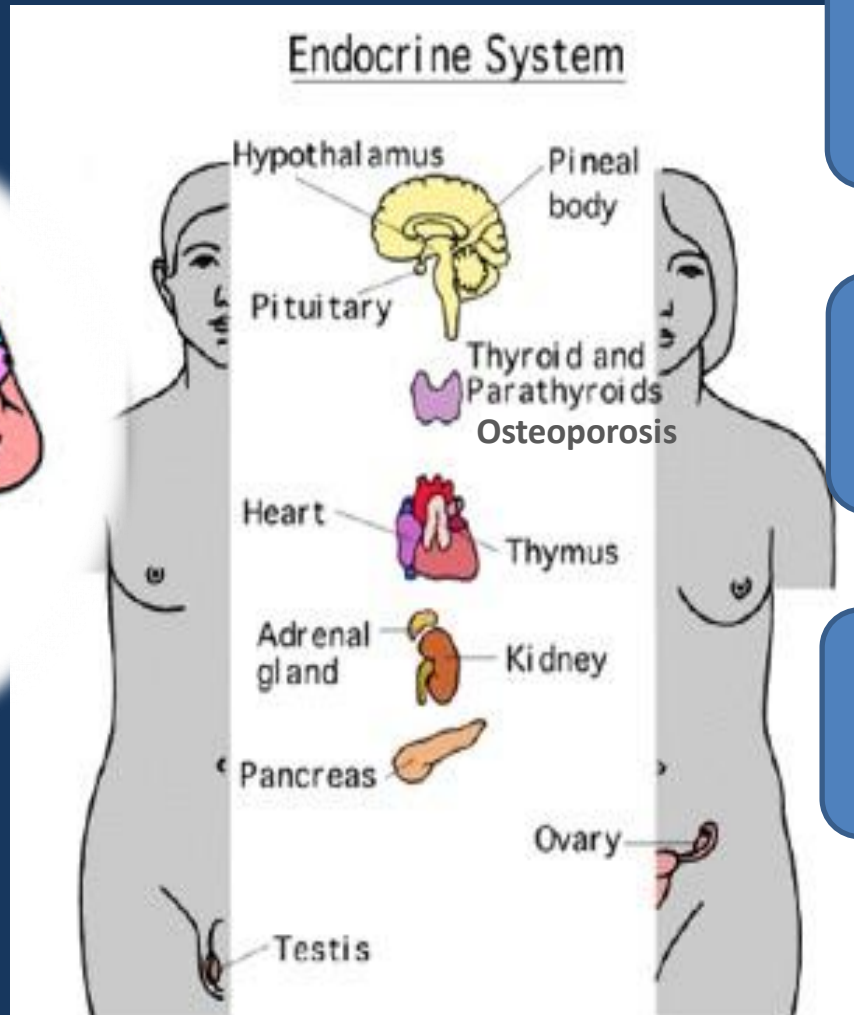

ENDOCRINOLOGY

This is what we do...

ENDOCRINOLOGY

This is what we do...

Diabetes

High blood pressure

Cholesterol

ENDOCRINOLOGY

Everything is in moderation!!!

Thank you
